EDITOR'S BOTTOMLINE

It is a matter of concern that antibiotic formulations that do not have the approval of the Central drug regulator are in wide use in the country. A study published in The Lancet has revealed that over 47 per cent of the antibiotic drugs sold in private sector pharmacies in 2019 were not approved by the Central Drugs Standard Control Organisation (CDSCO).

There are different ways in which unapproved drugs come to be used. Some doctors prescribe them, though it is wrong and unprofessional to do so. An unholy nexus between drug manufacturers, sellers and doctors leads to such conduct. There are a large number of quacks and unqualified doctors in the country. They also prescribe such drugs. Many people do not go to a doctor but buy medicines over the counter without prescription. The study has noted that wrong and inappropriate use of antibiotics is a significant driver of antibiotic resistance in India. Such resistance will create a situation where antibiotics will no longer be useful in the treatment of diseases. The supervisory mechanism for monitoring and checking the production and distribution of fake and unapproved drugs should be strengthened. India's drug manufacturing industry has made great progress and has acquired a global reputation. But there have been cases of many drug units failing quality tests.

Recently, a unit in Himachal Pradesh was sealed after it was found to be illegally manufacturing drugs for which it had no licence. Strict action should be taken in such cases. There should be awareness campaigns also to spread information about the need to reduce the use of antibiotics and avoid the use of unapproved medicines. — *In Deccan Herald*

Kitchenware uses electricity to make food taste saltier

Tokyo: Japanese researchers have created smart kitchenware that relies on electricity to make food saltier and tastier without adding any extra salt.

Salt consumed in excess, can cause serious health problems like high blood pressure, heart disease and stroke. But what if we could make food taste salty without using any salt? That's what scientists at Meiji University and developers Kirin Holdings have been working on for several years now.

A smart spoon and bowl recently showcased by the brilliant minds behind the project feature ample space for a built-in battery, so you no longer have to worry about hooking them up to a power supply every time you use them. The new smart spoon and bowl can make food taste 1.5 times saltier, which is welcome news to the many people who love salty food.

Probably the world's weirdest contact sport

Moscow: The world is full of weird and wacky sports, but when it comes to downright crazy inventions, the Russians definitely take the cake. After the insanity that was 'car-jitsu' – basically jiu jitsu in a car – the brilliant minds in Russia have again come up with something even more insane. Known only as 'armboxing', this new contact sport sees two fighters standing opposite each other being chained to a podium with their lead hands glued together and the other hand free to do damage.

According to the few sources, armboxing matches consist of up to three one-minute rounds. If both fighters manage to get past the second round, the third and final act features slightly different rules – the fighters have their lead hands released and can pound each other with both fists. A few clips of armboxing matches made their way onto video sharing platforms like TikTok in July, but they've been getting a lot of attention.

Extremely poor living conditions in MUDA Employees Layout, Dattagalli

Sir,

This is our humble request on behalf of all the residents of MUDA Employees Layout in Dattagalli, which is in a very bad state and the extremely poor living conditions of the Layout.

The 200 mts long Main Road which connects to the Ring Road is in a pathetic condition causing injuries to several citizens and damaging vehicles from past several years. The crossroads and the only alternate road is also in the same pathetic condition.

These unmotorable roads have become a nightmare to commute for citizens of all ages every single day. Lack of maintenance has blocked the drainages and causes flooding every time it rains. While the entire city of Mysuru is being illuminated with lakhs of LED street-lights, MUDA Employees Layout lacks basic tubelights.

Our sincere and humble request to our MLA G.T. Devegowda, MP Pratap Simha, officials concerned from MUDA and MCC to kindly do the needful at the earliest.

Narayana Multispeciality Hospital emerges as Centre of Excellence

for CRS (Cytoreductive surgery) and HIPEC (Hyperthermic Intraperitoneal Chemotherapy)

Mysuru, Sept. 16- Narayana Multispeciality Hospital, Mysuru, has added another feather to its illustrious cap of medical achievements with its newly launched Peritoneal Surface Malignancies Department.

The dedicated department has been instrumental in using the latest treatment modality called HIPEC (Hyperthermic intraperitoneal chemotherapy) and saving many patients suffering from advanced ovarian and appendiceal cancers (the type of Peritoneal Surface Malignancy that they were suffering from) since its launch one year ago.

CRS - HIPEC is a treatment modality that is generally used for treating advanced cancers in the abdomen. This technique is generally opted for when cancer has spread beyond the organ from where it originated to other parts of the abdomen. Most commonly treated cancers using this modality include ovarian cancer, bowel cancer, appendiceal cancer, and primary peritoneal cancer.

Addressing a press meet recently, Clinical Director of the Hospital, Dr. M.N. Ravi said "CRS - HIPEC is a two-step procedure that treats some abdominal cancers. Visible cancer deposits are surgically removed and then heated chemotherapy drugs are installed in the cavity to eliminate remaining microscopic cancer cells. This innovative procedure at the Cancer Centre of NH is a window of opportunity for patients with peritoneal cancers for excellent long-term outcomes and has been offered to many patients not only from Mysuru but surrounding districts also."

FROM LEFT: ***Dr. K.R. Suhas, Consultant Onco Surgeon, Narayana Multispeciality Hospital, Mysuru; Dr. H.M. Lokesh, GI Onco Surgeon; Dr. M.N. Ravi, Clinical Director and K.V. Kamath, Marketing Head, during a press meet at Pathrakarthara Bhavan.***

Dr. K.R. Suhas, Consultant Onco Surgeon, NH, said, "Owing to the difficult location and spread, Peritoneal Surface Malignancies are hard to treat. These cancers have a poor prognosis without adequate surgery and innovative treatment like CRS - HIPEC can offer better long-term prognosis and cure. CRS means complete removal of the inner lining of the abdomen (peritoneum) and removal of all visible cancer from the abdominal cavity. This is a complex procedure usually lasting for 8-10 hours."

Selling of properties by creating fake documents

City Congress Vice-President held

- Rajaram, an influential leader in Congress circle, is the kingpin; Five arrested so far in the case

By S.T. Ravikumar

Mysuru, Sept. 16- Kuvempunagar Police have arrested Mysuru City Congress Vice-President and his driver on charges of selling Government and private properties by creating fake documents. With this, the total number of arrests in the case has gone up to five.

Those arrested are City Congress Vice-President Rajaram and his driver Khadeer. Rajaram has been remanded to judicial custody. During investigation, the Police have come to know that Rajaram is the kingpin behind the racket. The Police are likely to take custody of Rajaram for further interrogation, according to sources.

It may be recalled that the City Police, on Sept. 5, busted a racket that sold Government and private properties to other persons by fabricating documents. Fake owners were created to sell land owned by different persons and also to obtain loans from banks and financial institutions. The

Rajaram

Nayeem

gang operated from a service apartment in Ramakrishnanagar and Kuvempunagar Police, led by DCP (Law and Order) Pradeep Gunti, Kuvempunagar Inspector K. Shanmuga Varma, who raided the Service Apartment, had arrested three persons and had recovered office seals of various departments and officers, fake e-stamp papers, laptops, printers and mobile phones from the accused.

Those arrested were Mohammed Nayeem, a realtor and a resident of Kattigenahalli at Hebbal in Bengaluru, Mohammed Shabaz Mallik of Rajivnagar in Mysuru and Deed Writer Bhaskar of Gandhinagar, Mysuru.

The gang had sold land owned by R.Q. Arshad, father of Bengaluru's Shivajinagar MLA Rizwan Arshad after fabricating documents and were trying to obtain a bank loan on a Mysuru Urban Development Authority (MUDA) site measuring 80x100 at Yadavagiri by creating fake documents.

The Police, who were investigating both the cases, received information that the gang was creating fake documents at Golden Bell Service Apartment in Ramakrishnanagar, and conducted the raid.

When Kuvempunagar Inspector Shanmuga Varma, who is the Investigating Officer, grilled the arrested, it came to be known that Congress leader Rajaram was the kingpin behind the racket. Interrogation also revealed that the gang had sold four to five properties at Rajivnagar in city by creating fake documents.

Rajaram was arrested yesterday and was produced before a Court, which remanded him to judicial custody. According to reliable sources, the Police are likely to submit an application to the Court seeking custody of Rajaram for further investigation.

Rajaram has a FIR registered against him at Vijayanagar Police Station in a murder case and he had appointed a private gunman for his security. Interrogation has also revealed that Rajaram used to procure rubber stamps (seals) of various Government Departments and officers, e-Stamp Papers, ink and other items from Bengaluru.

As of now, only properties sold in Mysuru by creating fake documents have come to light and the Police are investigating whether the gang had committed similar crimes in other places, it is learnt.

It is learnt that Rajaram is a very influential person, who is very close to senior Congress politicians and he was made the Mysuru City Congress Vice-President within a year of him joining the Congress party.

It may be recalled that *Star of Mysore* had published a news item with the headline ***'City Police unearth fake land racket; three held'*** on Sept. 6.

Mysuru, Sept. 16 (SBD&DM)- The male elephant calf born to Dasara elephant Lakshmi in the Palace premises on the night of Sept.13 has been named as 'Sri Dattatreya'.

'Unholy alliance of religion and politics creating turmoil in society'

Mysuru, Sept. 16 (GA&TRR)- Dr. Byramangala Ramegowda, President of B.M. Sri. Smaraka Pratishtana, Bengaluru, has opined that the unholy alliance between religion and politics is creating turmoil in the society.

He was speaking at the valedictory function of the 2-day National-level Seminar "Jaina Dharma: Samajamukhi Chintanegalu," jointly organised by Jaina Sahitya Samskruti Adhyayana Kendra and Sri Dharmastala Manjunatheshwara (SDM) Mahila Mahavidyalaya at SDM Women's College Auditorium in Krishnamurthypuram, on Tuesday last.

"Religion and politics which are supposed to discharge their duties in their respective fields independently are now conspiring to support each other for their self-interests. "Politics is surrendering to religion with the intention of getting easy votes. To propagate religion and to glorify itself, religion is seeking the support of politics. Caught between the two, common man is suffering a lot," he said.

"Believing those who said that *ache din* will come if you vote for us, people voted for them. Those who came to power have completed their first term and continuing in their second term. But, those who were expecting *ache din* are still waiting for its arrival. If we try to question them about it, politicians are evading replies. Voters who ought to have questioned them are now in a helpless situation," he bemoaned.

"The problems created by politics are leading to turmoil in the society. Poets, writers and intellectuals who should have spoken about the hardships of the common man are maintaining silence. We are worried about the consequences of talking against our rulers. We are in a situation where questioning those in power and criticising their policies are being viewed as an offence and those who do that are being put behind the bars," he charged.

Stating that Poet Pampa should be remembered at times like these, Pratishtana President said that Ranna, Janna and others who followed the footsteps of Pampa, used to criticise their kings and oppose their anti-people policies despite being under the shelter of the kings.

Jaina Sahitya Samskruti Adhyayana Kendra Coordinator Dr. Tarihalli Hanumanthappa, SDM Women's College Principal Prof. Sainath Malligemadu, H. Narasimharaju and others were present on the occasion.

PM will not take part in Dasara proccession

Bengaluru, Sept.16- Setting at rest all speculations on Prime Minister Narendra Modi's visit to Mysuru for Dasara procession on Oct.5, it is learnt that the Chief Minister's Office in Bengaluru has received a communiqué from the PM's Office that Modi will not be arriving for Dasara celebrations in Mysuru.

Reacting to media reports on PM's visit here on Thursday, Chief Minister Basavaraj Bommai said that there is no certainty on Modi's visit. This apart, the PM's Office has not yet confirmed the participation of the PM in any other programmes in the State during Dasara, he added.

Earlier, Mysuru-Kodagu MP Pratap Simha had said in Mysuru that PM Modi may inaugurate the grand Dasara *Jumboo Savari* procession on Oct.5. Maintaining that the PMO had called him a couple of days ago to enquire about Dasara dates and programmes, Simha contended that the enquiry had made him think that the Prime Minister was interested in taking part in Dasara. Also, he had believed that the PM may have an intention of inaugurating Dasara procession as he had made a vow on having *darshan* of Goddess Chamundeshwari again when he visited the Hill temple during his visit for the World Yoga Day event held in Mysuru in June this year, Simha pointed out.

Second round of cannon firing drill held successfully

- Venue shifted to Dasara expo parking lot on request from Mysore royal family
- 12 Dasara jumbos, 38 Mounted Police horses take part in the exercise

Mysuru, Sept. 16 (MTY&KS)- The second round of cannon firing exercise for Dasara elephants and horses to familiarise them with the loud sound of cannons was held successfully at the new venue — Dasara Expo parking lot on M.G. Road — this afternoon.

The cannon firing drill, which used to be held at the parking lot, near the Varaha Gate of Mysore Palace, was changed today following a request from the Mysore royal family as the huge compound wall of the Palace was developing cracks.

Out of the 14 Dasara elephants, 12 Dasara jumbos led by 'Fearless' Abhimanyu and 38 Mounted Police horses took part in the cannon firing drill today. As Lakshmi has given birth to a calf, she was relaxing in the Palace. Chaitra also did not take part in the exercise as she was giving company to Lakshmi.

All the 12 Dasara elephants, which were led through Jayamarthanda Gate of the Palace, entered the Dasara Exhibition Grounds through the main entrance and reached the parking lot where they were made to stand in a line. Thirty eight Mounted Police horses were also brought to the venue and were made to stand close to the elephants so that they could get used to the elephants and the elephants could get themselves familiarised with the horses.

As usual, 21 rounds were fired using seven cannons during which Parthasarathy, the youngest in the Dasara jumbo squad expressed a little fear in the first round but stood still during two more rounds. The rest of the Dasara elephants and Mounted Police horses remained calm during the firing exercise.

Deputy Conservator of Forests (DCF) Dr. V. Karikalan said that the second round of cannon firing drill was held successfully at Dasara Expo parking lot this afternoon.

Pointing out that the elephants did not budge or expressed fear to the cannon sound, which is a good development, the DCF said that the venue was changed on request from Pramoda Devi Wadiyar of the Mysore Royal family.

Stating that Lakshmi cannot be left alone as she had given birth recently, Dr. Karikalan said that another female elephant Chaitra is left with Lakshmi for her company and hence Chaitra could not participate in today's cannon firing drill.

When asked why Chaitra was chosen to be left with Lakshmi? the DCF said that as Lakshmi and Chaitra belong to the same elephant camp, they know each other well and hence Chaitra was left with Lakshmi.

City Armed Reserve (CAR) DCP Shivaraju, elephant caretakers, mahouts and kavadis and others were present.

The third round of cannon firing exercise will be held on Sept. 23 at the Dasara Expo parking lot on M.G. Road.

CRICKET TALK

By V.N. Prasad

'Dark Horses - Young Lankan Lions' sink Pakistan to lift Asia Cup - 2022

Ring of Fire' at the Dubai International Cricket Stadium was lit up in 'Sprawling Fire Crackers Show' as proud Lankans exhibited spirited display of cricket to lift the Asia Cup-2022; their 6th Cup, after a gap of 7 long years.

Undoubtedly, Pakistan's 'Bench Strength' was far superior to that of the Lankans. On the day, the Lions roared while the Pakistanis were all in disarray. Put into bat, Lankans collapsed to 58 for 5 in the 9th over; as we all suspected a 'Damp Squib' to ensue. But a dogged partnership of 58 runs between Rajapaksa-Hasaranga helped Lankans to build a decent total of 170. What followed later were more characteristic — their exceptional bowling and brilliant catching.

"Catches Win Matches," an old cricketing adage was writ all over; as the Lankans latched on to every difficult chance to leave Pakistan 'Shell Shocked' falling short by 23 runs. That was their 5th successive/straight win in the tournament. Heartiest congratulations to them on lifting the coveted trophy. And, hearty congratulations to the spin wizard and impactful batsman Wanindu Hasaranga on being adjudged the 'Player of the Series'. Bravo Lions.

It was pleasing to hear Lankan Skipper, Dasun Shanaka, dedicating the Trophy to his ailing Motherland. World felt sad when Sri Lanka Cricket appealed to the Asian Cricket Board to shift the tournament out. Consequently, it was only on the 2nd of August, 2022, the fixtures were announced at the UAE — and the Emirates provided excellent facilities at short notice. We thank UAE for their grand gesture. And, we all pray that Sri Lanka comes out of the crisis soon and peace restored in the Island at the earliest.

Cricket is a funny game. Complexion of tournaments can change metamorphically, especially in T20 format. Here, the Lankans were nowhere in the reckoning at the beginning of the tournament. The suspicion grew more when they lost miserably to Afghanistan in 'Round Robin' by 8 wickets and 59 balls to spare — a pathetic display.

Their self-belief grew soon, in a heroic chase of 183 against Bangladesh in the 20th over. Carrying the momentum into the 'Super Four' round, they displayed splendid grit and determination chasing 175 against Afghanistan and leaving India 'Yellow Faced' chasing 173 with ease.

Commentators and Pundits lamented thus: Focus was all on India and Pakistan vying for the Cup. Whereas India disappointed with wayward performances, Pakistan failed to gel as a unit; vastly on account of Skipper Babar Azam not clicking with his willow.

Undoubtedly, keeper Md. Rizwan batted consistently and brilliantly. Hardly the others rallied around him to create a distinct impact. But, their bowlers were the best and most consistent of all other teams. Their ground fielding and catching left much to be desired. Anyway, that is cricket.

Coming to the format of the Asia Cup-2022. A tournament of any kind cannot contain innocuous and inconsequential matches in the format. Every possibility has to be envisioned to ensure continuity of cricketing interests — both for the players and the spectators/ TV viewers all over. Groups leading to Knock Outs should have had continuity to finals — without compulsions of playing innocuous/inconsequential matches. I refer to the two such boring and meaningless matches in the 'Super 4' — First 'India Vs Afghanistan' and Second 'Pakistan Vs Sri Lanka', a flawed format. Instead of Groups A & B, all the teams could have played Round Robin; Plus 2 Semis and Final would have ensured clinical closure. Well, maximisation of encounters through thoughtless formatting lead to 'Boring Encounters'.

Lastly, a few thoughts on our own boys. Excitement was rife with huge expectations. It was almost a forgone conclusion that Men in Blue and Men in Green were the hot favourites. Ironically, we lacked the 'Cutting Edge' as openers faltered time and again. Middle order failed to butt in.

Rohit was here and there. No one can understand the mindset of K.L. Rahul. His average of 17.5 until we were edged out of the Asia Cup is awful for an opening batsman. KLR rose from the ashes, only after we were reduced to ashes; to belt 62 off 41 against Afghanistan; an inconsequential match. Surya Kumar Yadav and Hardik Pandya seem to be getting complacent. Pant was indifferent while Dinesh Karthik was wondering of his unceremonious exclusion. Only redeeming feature, however, was the return to form of Virat Kohli. Bowlers lacked the 'Killer Instinct'. Ashwin seems to be getting ready for his exit from international scene. Fielding and catching were below par. Best to the boys going forward.

In the tournament, Afghans have looked an excellent side. On their day, they are capable of choking any team in the world. We wish them the best ▪

In a press release, the Department said that the Yogathon has been postponed due to the ongoing Assembly session and other factors such as University exams and rains. WORD OF THE DAY

Broadside

Pronunciation: BRAWD-syde.
Meaning: The word broadside most often refers to a very strong and harsh spoken or written attack, but it has other meanings as well, among them "an attack by a ship in which all the guns on one side of the ship are fired together."
Origin: Nautical language is both fascinating and fun, what with its jibbooms and spirketing, its scuppers and poop decks. As these four terms demonstrate, not all ship-related words sail over to landlubber vocabulary, but broadside is one that has. It originally referred to the side of a ship above the water, then later to the guns arrayed along that side. The further use of broadside to refer to the firing of all those guns at once eventually led to the figurative "volley of abuse" sense — a strongly worded attack intended to shiver one's timbers. The printing-related uses of broadside, referring originally to sheets of paper, and then to matter printed on such paper, arose independently.
Example: "Mr. Taruskin had a no-holds-barred approach to intellectual combat. ...Following a 1991 broadside by Mr. Taruskin contending that Sergei Prokofiev had composed Stalinist propaganda, one biographer complained of his 'sneering antipathy.'"—William Robin

THE ODD WORD

Balbriggan

Knitted cotton fabric.

PHRASE OF THE DAY

Back the field

Meaning: Place a bet on all the horses in a race, except one.
Origin: This is the designation given to the betting against a particular horse (or small group of horses). If a punter believes a horse is sure to lose he can back all the others — 'the field'. This was referred to in the 1878 Chambers's Encyclopedia: "There are men ... ready to lay against any horse and 'back' the 'field'."

QUOTE BOX

No walk is lovelier than the walk you make inside a field!
